I'm not scared for myself to go to DC armed, and if required, do bad things. I'm scared to death for my small children. Scares the fuck out of me. And all I can do is still go. Because that's what I'm supposed to do.

I look for them to first try and prevent people from getting into the city. I think they will try and keep them away from the capital and maybe even shut down cell service. For all those that are talking about taking firearms into DC I wouldn't let anybody see it unless it's the last thing they are going to see. DC has a zero 2A rights ban. I've also got the feeling that's going to be big time. Could be really great or it could be the start of things we haven't seen since the 1860's 🚂 🚂 🚂 🚂 🚂

funny stuff fren

one of my favorite stories

When also in the Isthmus he met Diogenes of Sinope, lying in the sun, standing near him with his shield-bearing guards and foot Companions, he asked if he wanted anything. But Diogenes said that he wanted nothing else, except that he and his attendants would stand out of the sun. Alexander is said to have expressed his admiration of Diogenes's conduct. Thus it is evident that Alexander was not entirely destitute of better feelings; but he was the slave of his insatiable ambition.

Do you really believe everyone else is so stupid and you are so clever the little fools don't even notice you tricked them by adding in "random people"?

And yuck to you then, a sentence later acting like a cutey and telling others about using scripture in 'bad faith' after you did just that faggot faith sin right there.

You know full well, you liar, you know full well nobody here told you a thing about 'random people' (and you wanted to write 'innocent' im sure) so fuck off with that Bad Faggot Argument.

Many Saints of the early Church were soldiers. There is so much precedent in Christian history to fight for one's nation and to defend it, it isn't even debatable.

Hey now I haven't seen anybody in here talking about going to DC and shooting anybody. What people are trying to say is they believe that sometimes you have to throw off the chains of your oppressor. It's our right and duty to defend this nation from all enemies foreign and domestic. We the people cannot stand by and watch our nation be

stolen and turned into China. Firing bullets is a last resort. I garaunttee that if 5 or 10 million armed citizens marched on DC a shot need not be fired. 🚂 🚂 🚂 🚂 🚂

I'll have to agree to a point. Seems that people are forgetting what is the purpose of going. It's not for doing battle with the Antifa and BLM it's to do battle with the tyrants. But I do say this if I was younger and still had my health I'd be there. If Antifa attacks they should get what's coming to them. That might not be pretty. But we need to stay fucosed on four more years of Trump. 🚂 🚂 🚂 🚂 🚂

Riggghhht. But you do realize that entire phrase is for people who want war for nothing. Who seek violence on innocents. Not about self defense or self preservation of family.

You give up your life for Christ's sake . But you don't go down for nothing.

And don't ever say Jesus was against violence because that is a lie. Violence against evil is a good thing and a must.

Jesus beat people with a whip for just selling merchandise. Jesus cursed the fig tree and destroyed it because it didn't bare fruit.

Peter the apostle killed a man and his wife for lying to him and the holy spirit just by telling them they would die because of lying.

Paul blinded the false prophet with just his words and hand.

So again as much as the Lord told us to bring peace into the world and be kind to one another and convert the unbeliever and wicked persons. He openly many times curses and hates evil and the evil man and wants you to detest evil from among yourself and the community. Or else he said we will all suffer due to cowardess and foolishness.

I don't think violence is a good answer, but sometimes it's the only answer, and essential.

It is the only answer when rights are threatened.

And rights have been threatened for years, and are already restricted by the left.

Mine is definite lack of experience, if I was near somebody that knew what they were doing , I learn really quickly. There's the problem: I can mentally play defense easier, but to play offense I really have no clue.

Then we need you to hide in front of someone who does. What I mean here is we need guys like you to be defense, have a shield (or be one) and that's exactly what you do, you knock down sticks, you bat rocks out of the air, you brace yourself to stop or slow incoming attackers and if they do then you grab and hold and roll and hold them down.

That is every bit as valuable as attacking because - well that's how the attackers are free to do just that - keep attacking.

You have the right idea and all the credit for that. Over and over we have way too many people who are **not good at direct offense** fucking up things because they insist on doing that job. Instead, we need people to simply do what they are best at. You know you're a 'defense' guy so that's what you do and let everyone else trust that.

In Burn's 10 part Vietnam War history, one of the American soldiers that was there said something that kind of stuck with me (I'm paraphrasing) : " Humans aren't the top species because we are nice. The military doesn't make you that way. It's just finishing school. Civilization exists because we learn to rope in our aggressive tendencies."

I used to be a violent man when I was younger drinking and getting into fights. I've seen plenty of blood. But what we are discussing is far different. Before people go marching off to war they need to look at what it is close up. I was about to send people to bestgore.com but I just checked and it's been taken down. If you cannot handle seeing people having their heads removed with a kitchen knife maybe war ain't for you. I know everybody is worked up and have every right to be. Just remember once the bullet leaves the gun it ain't coming back. Be safe out there and don't get separated into small groups. Antifa and BLM won't try to much until it gets dark. But they are not what it's about. It's about seeing to it the rightful winner of the 2020 election remains in the whitehouse. The shitbags inside the capital building need to know if they betray their country that their country is coming in that building to pay them a visit. 🚂 🚂 🚂 🚂 🚂

I've only been able to muster an aggressive response when my kids were attacked. When it's just myself, I freeze up like a bunny. Can't even scream.

I know this about myself because reality has been a bitch, but a lot of girls have been fed a steady diet of GI Jane and have no clue. They also think that if they workout, they can take on a full-grown man, which is ridiculous.

I hope you guys realize that most women are a liability in a fight. And giving them weapons is just inviting someone to disarm them. Women can actually protect themselves better with non-lethal weapons like pepper spray. Or with staying behind and making sandwiches.

This. Absolutely agree.

Women can be quite useful, even the timid ones, but they're worse than useless in close combat. Even if they're brave and aggressive, their reaction time will seem like slow-motion when facing an adrenalin-pumped opponent.

Women are useful further back, though, as lookouts or riflemen/bowmen. They often have good aim and don't bore easily.

I used to do recon; nerdy chicks are good for that because they are observant and can navigate well. Or spying. Anything sneaky.

Women are just built differently than men. I agree most women are not close combat material. I am unassuming looking, blend into a crowd, level headed enough to not bring attention to myself, leery enough to know BLM, Antifa, and other groups will put plants to get info from our side. I am from a Naval family, nuclear subs, and my dad is a black belt who had a dojo while I was growing up. I know how to look for people's weaknesses, watch their body language, rely on all of my senses, and my reflexes are cat-like. I can take a punch, I also know how to block, I can and will break someone's knee if I have to. I am thinking these commies have become fond of throwing fireworks. Anyone think about how to handle that? I am thinking aluminum garbage can lids. They can act as a shield or they can be used to cap the firework on the ground. Cut the oxygen and it will go out.

You think in a full blown civil war that stores will just be open and we can walk in and buy what we need? Or will you have enough supplies for a few years of your own food?

Do you think just because a war is happening that the right to private property doesn't exist, or that the concept of theft no longer exists, or that right and wrong no longer matter?

And yes I can easily be self sufficient for food and water for years, it's called a farm. Some of us can actually provide the necessities of life.

We are talking apples and oranges, you are talking about hiding on your land while others are fighting across the country. Of course if we all stay home we can all shop and eat normally, but what of those out risking their lives and hiding out? Are you willing to donate your supplies to them , transport them to where the battles are? Or only worrying about your own skin?

Here's a big as tip, leave the fucking cities. They are absolute shit, not worth fighting for, and should be burnt. If you actually want to win this 'war' of yours you need to control the farmland. Without the farmland you starve to death. Do you actually think people are going to keep shipping food to those stores during a war? Or are you just excited about the chance to act like a jogger that you forgot how those places actually get their food? This ain't the walking dead you aren't going to be foraging for canned goods in a war torn city for longer than a week.

What women will be most useful for is just taking up space in arial photos. The more people, the better, because everyone is going to be counting how many showed up.

Violence should be our last resort. We can't be the aggressors. We have the right to defend ourselves though.

I'd be willing to be your shield, but I'm already keeping my wife out of the fray (her willingness is not the issue, mine is), so you'll need to find someone else.

If you're in DC, look for fit guys that:

1. That drove their own car to DC (not people who flew)
2. Does NOT wear camo
3. Physically fit

They will be your leaders if Lexington happens again.

Not every hero gets to ride in the parade, some were passing ammo and assembling supplies behind the scenes and they get to stand and Salute on the sidewalks and cheer their fellow Pedes while they ride by.

But they are still Honored and Appreciated.

We didn't become America by being peaceful with England. There comes a time when we have to stop being peaceful and start to use force so our families' generations to come can have a life without oppression.
